

## NUCLEAR

### NT-P3 POWERED UP-ENDER

- The NT-P3 up-ender raises fresh fuel shipping packages to a vertical position without the use of a facility crane.
- Simple pushbutton pendant control.
- Modular carriage design allows the up-ender to handle AREVA MAP-12, AREVA MAP 13, and Westinghouse-Traveller shipping packages.
- Interlocking latching system prevents the up-ender from operating if a package is not properly secured.
- Heavy duty carbon steel construction and durable powder coat finish.
- Manufactured to NQA-1 standards.
- Data pack is provided with each upender.
- Complete structural design and analysis has been performed and documented.
- Requires 480 VAC, 3-phase, 60 Hz, 10-amp electrical service.
- Up-ender weight is 5,600 lbs.
- Optional storage container allows the up-ender to be stored outside when not in use.
